

## KENNER LIFT STATION

*February 14, 2012*

*For Immediate Release*

### **Kenner Lift Station Base Flood Elevation Adjustments**

Three sewer lift stations in Kenner will receive adjustments to elevate equipment to the 100-year base flood elevations. The stations include 33<sup>rd</sup> & Connecticut, 42<sup>nd</sup> & Illinois and Chateau Magdelaine. The work at 42<sup>nd</sup> & Illinois and Chateau Magdelaine is complete and approval has been granted by the Louisiana Dept. of Environmental Quality and the Louisiana Department of Health and Hospitals. Work to elevate the equipment at 33<sup>rd</sup> & Connecticut Lift Station is expected to be complete within the next six weeks. The design to elevate the equipment at 33<sup>rd</sup> & Connecticut has been approved by the Louisiana Department of Environmental Quality and Louisiana Department of Health and Hospitals. These adjustments will be completed at no cost to the City of Kenner.
