MAYOR MICHAEL S. YENNI ANNOUNCES LAUNCH OF NEW CITY OF KENNER OFFICIAL WEBSITE

Upon taking office in July of 2010, Mayor Mike Yenni acknowledged that one of his top priorities was to revamp and launch a city website that facilitated effective interaction between his administration, the City Council, and the citizens, residents, businesses and visitors in the City of Kenner. Given the rapid growth and major advances in the technological industry, Mayor Yenni recognized the trends with regard to e-government and its increasing prevalence within all levels of government. He saw the need for a stronger web-presence for the City of Kenner and knew that this would be accomplished with a newer and more user-friendly website.

The new website was launched today, August 1, 2011, and is accessible via the following address: www.kenner.la.us. In an effort to maintain access to public information, all contracts, public notices, meeting agendas, adopted legislation, and current events are available for public viewing. Furthermore, links to the Municipal Code of Ordinances, the City of Kenner Home Rule Charter, Municode, and pertinent ordinances commonly referenced are available as well.

Mayor Yenni said "It is my hope that the launch of a newer, more user-friendly website will provoke a higher level of web-based interaction between the City of Kenner government and the individuals and businesses that we serve."

For any questions regarding the website or for more information, please contact the Department of Information Technology and Telecommunications at (504) 468-6655.
