

## CITY OF KENNER OFFICE OF EMERGENCY MANAGEMENT

05/06/24

Weather in Southeast Louisiana can be unpredictable. During storm season it is important to monitor weather conditions. Be sure to obtain information from a reliable source. The National Weather Services provides accurate, real-time information on local and regional weather conditions, 24 hours a day. When severe weather is forecast, tune into trusted local news and weather sources for additional information. Below are links to keep you informed about weather affecting Kenner and the surrounding area.
